

THE OPENING CEREMONY

Tribal Flag

Each tribe will be given a piece of calico to create a Flag which needs to be decorated to represent each tribe at the BB Olympics in a unique way.

The flag should be carried into the Olympic stadium by someone in your tribe during your March In. The flag can feature text, pictures, 3D or textured objects, names of tribe members or even create a mascot. The more creative the flag, the better!

The March in (Performance)

Any good Olympic contest involves an extravagant opening ceremony! Each tribe will need to March in the opening ceremony arena, seeking to impress the judges and show tribal spirit with a War Dance.

Max time is 1 minute for march In. All student delegates must be involved.

The Tribal War Dance

Your War Dance will be performed in the judging area. It is different from the March In and will be assessed separately - please do not go straight from your chant into the War Dance!

When creating the Tribal War Dance, tribes should include their own tribal creativity. The War Dance will be judged on intimidation factor (volume, body language), lyrics (creativity, relevance, and humour), performance (choreography, co-ordination) and presentation (costumes, props).

Max time is 2 minutes. Please be conscious of timing! All delegates must be involved.
